Date of Notice: Friday, December 17, 2015

What does on-reserve matrimonial real property law mean to Musqueam?

Resolution of this issue is long overdue. Government bodies at all levels have consistently recommended legislative action.

Provincial laws protect the matrimonial real property interests and rights of both spouses during a relationship, or in the event of separation, divorce or death. However, on-reserve matrimonial interests or rights include a couple's family home and other matrimonial interests or rights, where either spouses or common-law partners live together.

In 1986, the Supreme Court of Canada ruled that courts cannot apply provincial family laws on reserves governed by the *Indian Act*, if doing so would alter individual interests in matrimonial real property on reserves.

- Many of the legal protections relating to matrimonial interests or rights that are applicable off reserves are not available to individuals on reserves; and
- The *Indian Act* is silent on this issue.

Through the 2012 ratification of the Musqueam Land Code, Musqueam Band Members voted to manage our own land and resources.

This means we are now in a position to make our own law on matrimonial real property. We need your input on this important issue.

If you have questions about Family Homes on Reserves and Matrimonial Interests Act at Musqueam, please call Kim A. Guerin, Coordinator, Musqueam Land Code Phone: 604-263-3261 or 1-866-282-3261.

Safe Drinking Water Monitor Program

Charlene Campbell-Wood

Discusses signs of when your body loses too much fluid through diarrhea, vomiting, sweating, or exercise. Covers dehydration in babies, small children, and older adults. Discusses prevention, when to see a doctor, emergencies, and rehydration steps.

Dehydration

It is so important to keep hydrated by drinking water and foods with lots of water.

Dehydration occurs when your body loses too much fluid. This can happen when you stop drinking water or lose large amounts of fluid through diarrhea, vomiting, sweating, or exercise. Not drinking enough fluids can cause muscle cramps. You may feel faint. Usually your body can reabsorb fluid from your blood and other body tissues. But by the time you become severely dehydrated, you no longer have enough fluid in your body to get blood to your organs, and you may go into shock, which is a lifethreatening condition.

Dehydration can occur in anyone of any age, but it is most dangerous for babies, small children, and older adults.

Chronic Disease Program

January 14th, 2016

Please help us make YOUR gym a better gym.

Over the past year the use of small paper cups has increased at the gym approximately $\underline{10 \text{ x}}$. Our cost for paper cups each year is now very substantial.

Please....

- Bring an environmentally friendly water bottle to use.
- If you must use a cup please use only **ONE at a time**.
- Dispose of your own cup after you have used it.
- Consider using the water fountain for short sips of water and not a cup.

Please note that if there is enough interest we can order a large amount of water bottles and make them available for \$10.00 each. Thank you for your consideration and help

If you are interested in this class see the Recreation office or email cgibson@musqueam.bc.ca. Due to limited spaces indicating interest does not = registration. Those who get in touch will receive a registration confirmation or be put on a wait list.
