Greetings all!

My name is Renee, and I am excited to be working with the Social Development program here at Musqueam. Please come on by and say hi!

I am taking a little break from my regular job in finance with the federal government and am thrilled to have this opportunity to see the work that stems from the band office and administration. Leanne and Michelle are a wealth of information and have been assisting greatly in training.

My family is from all over BC, and I hail from Osoyoos, St. Mary's and Tsartlip nations. I grew up in Merritt and moved to Vancouver for college and university. I attended the University of British Columbia and have a degree in Anthropology. I also attended BCIT and am close to completing my degree in Forensic Sciences. Learning is an ongoing and never ending objective!

Please come on by and say hi,

Best,

Renée Robinson

## RFP Call for Artists

### 1.0 Background / Overview

The City of Vancouver is partnering with the three Host First Nations - Musqueam, Squamish and Tsleil-Waututh Nations - to determine an appropriate permanent art installation for Council Chambers that represents both the unceded traditional territories that the City is situated on and the spirit of reconciliation that guides our government to government relationships.

Each Nation will select one artist to design and produce a wall panel. The resulting artworks will represent the Nations and their relationships with one another and with the City of Vancouver. The three artworks should complement one another in terms of materials and scale and be consistent with the nature of the site as a seat of government.

**Once selected, each artist will enter into a contract with the City of Vancouver.**

---

### Scope of Work

Each artist will design and produce a wall panel which will be mounted inside Council Chambers on the north wall. The panels will officially represent each distinct nation.

#### *Project details:*

- Authenticity of representation is of high importance.
- While knowledge of traditional art style is important, the work may be in contemporary form.
- The opportunity is suitable for artists who have experience producing artworks and who are available to complete the project between February and June 2016.
- Final installation details will be reviewed and approved by the City of Vancouver.
- Wall panels are vertical and measure 3 feet in width and 7 feet in height.
- Consistent scale and materials across the pieces is desirable to ensure some harmony in the space. Selected artists should work together to identify essential factors.

- The panels may be made of wood and/or other structurally viable materials.
- City Hall is a heritage building and Council Chambers is a heritage space. Wall mounted panels should limit the number and size of incursions into the walls. A consistent mounting method will be determined working with the artists.
- All artist proposals will be reviewed in terms of long term maintenance and structural viability prior to approval for fabrication and installation.

## **2.0 Selection Process**

Phase 1: A shortlist of up to three artists will be selected by a panel of three representatives of the Nation who are knowledgeable about tradition and contemporary art practices. The panel will determine the selection method and required submission materials.

Phase 2: A Selection Panel made up of the same three people from the Nation plus two people appointed by the City (who represent the project as a whole and are consistent on each panel) and one representative from each of the other two nations will interview the shortlisted artists.

Shortlisted artists will be invited to tour Council Chambers and review the site details.

At their interview, shortlisted artists will be asked to present:

- Up to ten images of past work and descriptions,
- Comments on the nature of their practice, mediums, etc.
- Preliminary thoughts on their approach to the opportunity in Vancouver City Council Chambers,
- Considerations towards the relationship between the artworks in the space and working with the other artists.
- Shortlisted artists will also need to confirm availability for the timeline and provide references.

The panels will select one artist to represent each nation. Selected artists will develop a Concept Proposal and will meet with other selected artists to consider the relationship between the works as a whole.

## **3.0 Requisite Artist Qualification(s)**

- High artistic merit and quality of past work
- Demonstrated skills with materials
- Thorough understanding of symbols, protocols and iconography of the Nation
- Experience with similar scale projects and ability to work to defined schedules and budgets
- Ability to collaborate and work with others

## **4.0 Timeline**

The City reserves the right to modify dates as needed.

## 6.0 Review Process
