## **Block F' Public Meeting**

The Manager of the University Endowment Lands will be sending our application for the rezoning of Block F to a 'Public Meeting' on **Tuesday May 31st at the UBC Golf Club**. There will be an **'open house' from 4:30 - 6:30pm** followed by a **formal meeting from 6:30 – 9:30pm**. The meetings are open to the general public and will be advertised to all residents of UEL and the surrounding community. This rezoning is being led by Musqueam Capital Corp. and its consultant team and we encourage all Musqueam members to attend this event and show your support.

The open house will allow the public to view the project 'story boards' along with the scaled model of the completed development and to talk with our team about all aspects of the project. The formal meeting is part of the 'statutory' or required process that allows the Minister of Community Sport and Culture to formally rezone property after considering the comments from the general public at this meeting.

We have been working towards the rezoning of these lands for several years and feel that we are now very close to finalizing this process. The development incorporates the Preservation and enhancement of open space, Sustainability, Community integration and respect, Housing diversity, Responsible development and Building a community heart. The success of this project will make a significant contribution towards the economic independence of Musqueam. At the same time, it preserves and enhances the natural environment, provides for community, a sense of place that reflects who we are as a nation.

We look forward to seeing you at this event.

### **Safe Drinking Water Monitor Program—Charlene Campbell-Wood**

#### **Dehydration:**

- ⇒ Dehydration occurs when your body loses too much fluid. This can happen when you stop drinking water or lose large amounts of fluid through diarrhea, vomiting, sweating, or exercise.
- ⇒ Not drinking enough fluids can cause muscle cramps and you may feel faint.
- ⇒ Usually your body can reabsorb fluid from your blood and other body tissues. But by the time you become severely dehydrated, you no longer have enough fluid in your body to get blood to your organs, and you may go into shock, which is a life-threatening condition.

## AWAKENING THE SPIRIT

### **Musqueam Canoe work underway!**

If you haven't been to visit the work site at the Cultural Centre field yet, know that progress is coming along fast. At this point, the Old Woman Log has now become a canoe in waiting.

There is a large pile of wood pieces and shavings beside the canoe now. Our canoe carver elders respectfully ask that these pieces of wood be left on site.

**Please don't help yourself to any of the wood pieces or chips from the site at this time.**

Some of these pieces are needed to complete work on the canoe itself as it progresses. Once this is complete, the remaining wood will be distributed to Musqueam carvers and community members who want it.

This is the first Cedar canoe being carved in our Musqueam community in the past 30 years. It is truly an historic event unfolding before our eyes, and one that we can all be proud of! This canoe will become belongs to all of us in community. Please let's all do our part to keep an eye on it, and ensure it's safe during this process.

O siem.

**Definition:** *“Two-Spirit” is a term used in North America to describe a First Nations/Indigenous identity that is not confined to mainstream heterosexual or gender norms of society. This term is another option for our people, and is not meant to describe every Indigenous person who identifies as queer, straight, male, female or other—every person has the right to define their own identity for themselves.*

You do not need to be Two-Spirited to be part of the Musqueam Two-Spirit Alliance.
