IF YOU SUSPECT YOU HAVE BEDBUGS- Do's and Don'ts

DO

- **Call ~ The Housing Department right away 604-269-3382 - Kerri. This must be done before any alternative accommodation arrangements are made.**

If bed bugs are found:

- To prepare for treatment of bedbugs, everything touching the wall should be moved 18 inches away from the wall. IE furniture, pictures and electronics. Please note that all electronics should be unplugged. Plate covers and light switch covers should be removed.
- Place all linens and clothing in sealed garbage bags.
- Once you have made alternative sleeping arrangements you should place the clothes or other items you wish to bring in the dryer for 45 minutes on the hottest setting and immediately following, place those items in a sealed plastic bag. DON'T

- Do not try and treat bedbugs on your own. You may end up making the problem worse by repelling the bugs into another room and spreading them throughout your home.
- When you have made arrangements to sleep at someone else's home during treatment, do not go back and forth as this may spread the bedbugs from home to home.
- When packing your items, freshly out of the dryer, do not use luggage or baggage as they cloth material could be infected.

PLEASE CONTACT THE HOUSING DEPARTMENT IF YOU REQUIRE FURTHER INFORMATION ON BEDBUGS.

Safe Drinking Water Monitor Program

Charlene Campbell

Canadian Drinking Water Guidelines

Canadian drinking water supplies are generally of excellent quality. However, water in nature is never "pure." It picks up bits and pieces of everything it comes into contact with, including minerals, silt, vegetation, fertilizers, and agricultural run-off. While most of these substances are harmless, some may pose a health risk. To address this risk, Health Canada works with the provincial and territorial governments to develop guidelines that set out the maximum acceptable concentrations of these substances in drinking water. These drinking water guidelines are designed to protect the health of the most vulnerable members of society, such as children and the elderly. The guidelines set out the basic parameters that every water system should strive to achieve in order to provide the cleanest, safest and most reliable drinking water possible.

If you would like more information on Canadian Drinking Water Guidelines go to www.hc-sc.gc.ca
