# Community Clean-Up and Bylaw Violations

## May 18<sup>th</sup>, 2017

Musqueam Safety and Security is working in conjunction with various departments of the Musqueam Indian Band and Buster's Towing, to **ensure the safety and cleanliness** of our streets. We will be addressing unlicensed vehicles on public roads immediately. Cleanliness and maintenance of our property is of the utmost importance.

Derelict vehicles, large boats and other debris on sidewalks and roads are not only unsightly but also cause a serious danger to our children and elders. We ask that you also keep in mind community pride. Our community and reserve is ours to care for both collectively and as individuals.

We are conducting a community wide sweep of roads and properties and noted Bylaw violations. We will be giving notice to those who are in violation of our Bylaws and asking that appropriate and timely action be taken to resolve these. Copies of all Bylaws are available at our main Administration Building during business hours.

By-Laws to note:

1. Traffic and Street Bylaw
  - Prohibits any person from placing, leaving or abandoning any derelict or abandoned motor vehicles on any street.
2. Nuisance By-law
  - Prohibits the storage or deposit of waste, vehicles, vessels, trailers, motor homes, fishing equipment, and commercial equipment on any Band Land.
  - Prohibits the storage or deposit of any substance or material that emits an obnoxious odor on any land, including real property for which a certificate of possession has been given.
3. Untidy Premises By-law
  - If you are to store any fishing equipment etc. on your real property it must be kept in a clean and non-hazardous manner
  - No owner of any real property may allow for accumulation of rubbish, discarded materials, hazardous waste, garbage, ashes, filth, offal or stored materials on said property.

Please note that all of these by-laws have provisions for the remedy of any violations, including but not limited to fines and the removal of vehicles, vessels, trash, and other offending materials.

We would like to thank those community members who have made an effort to ensure bylaw compliance and the cleaning up our streets. It has made a noticeable difference and community members have expressed their gratitude. If you have any questions or concerns please contact Laurence Paul, Safety Manager 604-263-3261 [lpaul@musqueam.bc.ca](mailto:lpaul@musqueam.bc.ca)

Thank you

### Safe Drinking Water Monitor Program

—Charlene Campbell-Wood

#### *Bottle vs. tap: 7 things to know about drinking water*

By Kazi Stastna, [CBC News](#) Posted: Sep 26, 2014 5:00 AM ET Last Updated: Oct 10, 2014 9:53 AM ET

**1. Water quality** Tap water is regulated by Health Canada and the provinces and territories. The [Guidelines for Canadian Drinking Water Quality](#) spell out the maximum levels of potentially harmful substances that are allowed in drinking water. Municipalities test their water sources constantly to make sure they are within these limits. Bottled water is not subject to the same guidelines because it is classified as a food and falls under the [Food and Drugs Act](#). Aside from arsenic, lead and coliform bacteria, the act does not set limits on specific contaminants. Spring and mineral water is subject to a few more rules before it is fit for human consumption.

**2. Self-policing industry** Monitoring of water quality in the bottled water industry is "essentially voluntary and internally regulated." Water from the tap is subject to more rigorous water quality guidelines than bottled water. The Canadian Food Inspection Agency (CFIA) does conduct inspections of bottled water plants, but the Polaris Institute found that these are done on average once every three years.

**3. Labels don't tell full story** Bottled water labels in Canada do have to specify how the water was treated and whether it contains fluoride and must list any added ingredients. Mineral and spring water must specify the mineral salt content while water that has had the bulk of its minerals filtered out must be labelled "demineralized." The industry has said bottled water has a shelf life of two years, but Health Canada [suggests replacing water](#) after one year.

**4. No clear health risks** Health Canada considers all bottled water that meets the standards set out in the Food and Drugs Act "comparable from a health and safety perspective". The lack of fluoride in bottled water, which usually contains none or lower levels than tap water, is another potential health concern that has been raised by health professionals who believe it helps [prevent tooth decay](#). Demineralized — either through commercial or household filtration — might deprive those who drink it of the [beneficial effects](#) of essential minerals such as magnesium and calcium. Bisphenol A, the [controversial compound](#) found in some plastics, is not a concern with PET water bottles.

**5. What about the drugs?** Many of the companies that sell bottled tap water claim their product tastes better than what comes out of your faucet. To achieve that "improved" taste, bottlers use additional treatment and disinfection processes that reduce potential contaminants and don't leave the same odour and taste as others...

**6. Cost** Bottled water can cost anywhere from about eight cents per 500 ml bottle of house brand spring water bought in bulk at a large grocery store chain to \$2.50 for a high-end brand like Fiji or Evian in a vending machine.

Tap water, meanwhile, costs Canadians on the order of tenths of a cent per litre.

**7. Environmental impact** Although many companies have tried to cut down on the amount of plastic they use and increase the proportion of recycled and compostable materials, the industry still generates significant waste and consumes water and fossil fuels in the process of bottling and transporting its products — in some cases, from as far as France or Fiji.

### Energy Drink information from Health Canada

#### Information for Parents on Caffeine in Energy Drinks

##### How much caffeine is safe for my children?

Health Canada recommends the **maximum daily caffeine intake for children** under 12 should not exceed 2.5 mg/kg of body weight. Based on average body weights of children, this means a maximum of:

- 45 mg for children aged four to six, about one 355ml can of cola
- 62.5 mg for children aged seven to nine, about one and a half 355ml cans of cola
- 85 mg for children aged 10 to 12, nearly two 355ml cans of cola

Teens should follow the precautionary recommendations of 2.5 mg/kg body weight. Older and heavier adolescents may be able to consume up to the adult limit: 400 mg/day.

##### Which products have caffeine in them?

Caffeine is found in a variety of products -- coffee, tea, chocolate, cola and certain medications as well as energy drinks and so-called energy shots.

For a quick reference of how much caffeine can be found in a variety of foods, please see [Health Canada's Caffeine in Food page](#).

The level of caffeine in energy drinks is different in each product, but can range anywhere from

50 mg per can to above 200 mg per can, well above the recommended maximum daily intake for most children and teens.

##### What should I know about energy drinks and my kids?

Energy drinks are not recommended for children because of their high levels of caffeine, and other ingredients. In some cases, one energy drink could have more caffeine than the safe daily intake for many children and teens. It's hard to link levels of caffeine to specific health effects because everybody has a different tolerance for caffeine, but we do know that children are at increased risk of experiencing behavioural effects from consuming caffeine.

Health Canada has received a number of reports of suspected health problems associated with energy drinks. Symptoms have included irregular heart beat and nervousness. If you suspect your child is experiencing such problems, contact your health care professional and report the problem to the manufacturer.

##### Is it safe to use energy drinks to keep hydrated while playing sports?

Energy drinks should not be confused with sports drinks such as Gatorade®

or PowerAde®. Sports drinks re-hydrate the body and provide sugars, which the body burns to create energy and replenish electrolytes. Electrolytes maintain salt and potassium balances in the body.

Energy drinks, on the other hand, should not be used as a fluid replacement. Because of their caffeine content, they can actually mask the signs of dehydration.

##### What advice can I give my teenagers for using Energy Drinks safely?

They should carefully read the labels of all health products they consume, including energy drinks, and follow label instructions.

They should consume energy drinks in moderation. Energy drinks should not be taken on an empty stomach and should not replace food.

They should never mix energy drinks with alcohol.

If they engage in intense physical activity or exercise they should not use energy drinks as a fluid replacement. They should drink water or sports drinks such as Gatorade® or PowerAde® for that.

The main concern is their potential to cause extreme **dehydration**, because caffeine acts as a diuretic (causing the body to lose water).

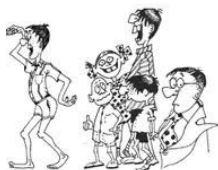

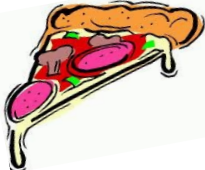

Exercise alone can **dehydrate** a person, so consuming caffeine-packed **energy drinks** before, during or after sports can worsen **dehydration** and be dangerous to the heart. Sep 21, 2005.

# Keegan Charlie

## Keegan Charlie brings cultural flare to the ‘beautiful game’

For Team British Columbia’s Keegan Charlie, soccer is a passion, and his years of training as a traditional dancer have helped to shape his rhythm on the pitch.

The 17-year-old captain of the BC 2017 NAIG men’s soccer team, has been dancing and singing for his Sts’ailes and Musqueam First Nation community since he was four-years-old. He is one of only a few First Nations people to play soccer in the BC Premier League and says his culture has made him the soccer player he is today.

“I’m very proud of who I am and where I come from,” said the 12th grader. “Nothing can really bother me when I’m dancing or when I’m playing sports. For me, they’re both just so spiritual. I’m very cultural and I don’t take that off when I’m playing soccer.”

Charlie has had the opportunity to play soccer regionally and provincially and carries a strong family tradition from competing for his village and community. Despite his reputation as a team leader, Charlie says he was taken aback, when he was named captain of his 2017 NAIG team.

“I already knew who the core guys were in our region so I expected my name would be in the mix,” said Charlie. “When I was chosen I was a bit surprised but I knew what I could bring to the team and that I could do a good job. I knew I could lead by example.”

Confident in his abilities Charlie credits his parents and his grandparents for being powerful influences who have helped him to build his confidence as an athlete. Their constant words of encouragement serve as a reminder to him of his cultural identity—something he hopes to bring to his role as team captain.

“We’re representing not only our family and our community but also BC,” said Charlie. My family always told me, ‘Never forget who you are.’ Those words can help someone if they are having a rough game. In tough moments, you can always remind yourself who you are and what you can do.”

With goals to play soccer at the varsity level and eventually having a professional career, Charlie says he’s honoured to be competing at the 2017 NAIG. Fiercely competitive, the youngster has his eyes set on the podium and sees competing at these Games as a step closer to realizing his dreams.

“I’m looking forward to gaining more experience,” said Charlie. “I’m also hoping we can come out with a gold medal.”

## 14<sup>th</sup> Annual Musqueam/UBC Youth Soccer Tournament

### Notice of Parking Restrictions

We would like to thank all community members for their continued support of the Annual MIB UBC Youth Soccer Tournament. This year will be the 14<sup>th</sup> Annual tournament and we are excited to once again play host to over 40 youth soccer teams for a fun and safe weekend of sport. This year's tournament takes place Saturday May 20<sup>th</sup> – Sunday May 21<sup>st</sup>, 2017. We are thankful to once again host the tournament at the Musqueam Sports Fields. While hosting close to home has a number of benefits it does present an issue with parking. Over the past years we have had a **HIGH number of incidents** of residents' driveways being blocked and a large number of lawns and gardens being ruined and littered with debris.

This year Safety and Security will be assisting us in implementing **VERY LIMITED PARKING AT THE FIELDS**. For this reason we ask that you utilize the shuttle service from the Band Office Parking Lot or walk to the fields. Please note Safety and Security staff will be blocking streets and restricting access to elders and handicap ONLY. Please help us to maintain a respectful and mutually beneficial relationship with our neighbours.

**Shuttle will run daily from 8:00 to after the end of the last game.**

**Thank you for your cooperation and understanding**

If you have any questions or concerns please contact Courtenay Gibson,
