CHIEF ERNIE CAMPBELL MEMORIAL FUND BACKGROUND

ABOUT US:

We are the Chief Ernie Campbell Memorial Fund, founded in 2017 by Chief Wayne Sparrow to honour the late Chief Campbell, and to help better serve members of the proud and great Musqueam First Nation. While our mission is to help serve the Musqueam People, we are separate from the Musqueam Indian Band. We receive no funds from the Band and are governed by a volunteer Board of Trustees.

Ernie Campbell served as Chief of the Musqueam Nation for many years, first elected in the 1980s and retiring in 2012. He was widely known as a fierce advocate for the Musqueam People, a visionary leader and a tough negotiator who led many successful initiatives on behalf of the Band. Equally important, Chief Campbell believed in the immense power of sport and education to make people's lives better, to teach important lessons, and to connect community. He also valued the Musqueam culture and heritage, believing that no one else defines who we are... our ancestors did, we do and our children will.

Chief Wayne Sparrow, who was elected after Chief Campbell passed away in 2013, wanted to honour Chief Campbell's values by creating this Fund in his memory to help advance the athletic, educational and cultural aspirations of the Musqueam People. Money for the Fund is raised through an annual charity golf event, attended and sponsored by friends and partners of the Musqueam Nation who also share in Chief Campbell's values and Chief Sparrow's vision.

It is our hope that, with donations and sponsorship provided by friends and partners of the Musqueam First Nation, the Chief Ernie Campbell Memorial Fund will help many Musqueam youth and adults have sports, educational and cultural experiences that they otherwise couldn't have, making them stronger people and us an even stronger Nation.

OUR MISSION:

Our mission is to provide funds which help support Musqueam Community Members enhance their personal growth and engagement with our great community through participation in sports, education and cultural activities.

OUR APPROACH TO AWARDING FUNDS:

Our goal is to contribute funds to members of the Musqueam Community who need help to participate in sports, education and cultural experiences, but we can't meet all requests. In order to manage the high demand and to ensure a fair distribution of funds, the Board considers social and economic barriers

facing the applicant and/or their family when determining eligibility for funding. Applicants are asked to try their best to find other ways to pay before applying the Chief Ernie Campbell Memorial Fund.

Applications will normally be reviewed by the Board of Trustees at the end of every quarter, but because this is our first year, the Board will review applications more frequently.

Please see **FUNDING GUIDELINES** and our **APPLICATION FORM** for more information.

WHAT WE FUND:

If you are a member of the Musqueam Community and have tried your best to find other ways to pay for important sports, education or cultural activities but you still need some extra help, you can apply.
**

Sports: The Chief Ernie Campbell Memorial Fund could help fund team and individual sports for things like: Uniform costs, sports equipment, competition fees, user fees, or reasonable travel fees and expenses associated with attending competitions.

Education: The Chief Ernie Campbell Memorial Fund will consider applications to help you with your schooling. Some of the things we could help fund are: Course fees, uniform costs, school/course supplies, educational assessment fees, shortfall in tuition fees, or reasonable travel fees and expenses associated with attending educational related events.

Culture: The Chief Ernie Campbell Memorial Fund wants to help the Musqueam Community rediscover their culture and heritage, and to support activities that help promote increased awareness of the Musqueam culture and values. Some of the things we could help fund are: Activities that revitalize Musqueam traditional practices or language, or reasonable expenses associated with cultural exchanges.

** Please see **FUNDING GUIDELINES** and our **APPLICATION FORM** for more information on what we fund and how you can apply.

CHIEF ERNIE CAMPBELL MEMORIAL FUND FUNDING GUIDELINES

OVERVIEW:

The Chief Ernie Campbell Memorial Fund raises money once a year through an annual golf tournament attended by friends and sponsors of the Musqueam Nation who also share in Chief Campbell's values and Chief Sparrow's vision. While the tournament is very successful, the demand for funds each year is always greater than the money raised. For that reason, and in order to ensure fair distribution of funds, the Board of Trustees applies the following screening process:

- As resources allow, first time applicants will receive priority for funding; and
- Consideration will be given to applicants which have social and/or economic barriers to participating; and/or
- Consideration will be given to applicants who have raised a portion of the required funding through other means.

GENERAL GUIDELINES:

- Only members of the Musqueam Community may apply for help with funding
- Applicants under the age of 18 require an Adult Sponsor (see below)
- Only one application may be made in each calendar year
- Applications must be received prior to the cost being incurred (the Fund will not reimburse for expenses already paid)
- Incomplete applications will be returned
- Supporting documentation required wherever possible
- Applicants who request support directly or indirectly from donors or sponsors of the Chief Ernie Campbell Memorial Fund are not eligible to receive money from the Fund.

ADULT SPONSOR:

If you are applying for funds and you're under the age of 18, you need an Adult Sponsor to apply on your behalf. An Adult Sponsor can be a parent, relative, guardian, counsellor, coach or friend over the age of 18. The Adult Sponsor is responsible to ensure the application is complete and accurate and submitted to the Board of Trustees.

NEEDS BASED VERIFICATION: (please read carefully)

The Applicant (or Adult Sponsor, if the applicant is younger than 18) must verify that all funding sources have been explored and that without assistance from the Chief Ernie Campbell Memorial Fund, the applicant would not be able to participate in the activity.

This is a very important step in your application process. Please provide a description of your efforts to obtain other sources of funding.

WHAT WE FUND:

If you are a member of the Musqueam Community and have tried your best to find other ways to pay for important sports, education or cultural activities but you still need some extra help, you can apply.

Sports: The Chief Ernie Campbell Memorial Fund could help fund team and individual sports for things like: Uniform costs, sports equipment, competition fees, user fees, or reasonable travel fees and expenses associated with attending competitions.

Education: The Chief Ernie Campbell Memorial Fund will consider applications to help you with your schooling. Some of the things we could help fund are: Course fees, uniform costs, school/course supplies, educational assessment fees, shortfall in tuition fees, or reasonable travel fees and expenses associated with attending educational related events.

Culture: The Chief Ernie Campbell Memorial Fund wants to help the Musqueam People rediscover their culture and heritage, and to support activities that help promote increased awareness of the Musqueam culture and values. Some of the things we could help fund are: Activities that revitalize Musqueam traditional practices or language, or reasonable expenses associated with cultural exchanges.

Note that due to high demand, even if your application is approved, the Fund may not be able to cover the total cost you have requested.

Internship Position: Summer Literacy Camps Program Support

Term: 4-month contract, 35 hours per week

Location: Vancouver, BC and travel within BC

Start date: May 1, 2018

Frontier College is a national, non-profit literacy organization which was founded in 1899. We work with children, teens, adults and families who need help to improve their literacy skills. We work with a variety of community-based organizations to deliver volunteer-run, community-based programs across Canada. Frontier College is accredited under the Imagine Canada Standards program.

We are seeking a full-time Camps Program Support (4-month, contract internship) to provide logistical, program and administrative support to the British Columbia Summer Literacy Camps Program. The camps support First Nations, Métis, and Inuit student success by responding to a need for quality learning supports in rural, remote, and isolated communities, especially during the summer months. The camps help prevent summer learning loss—the decline in student performance between school years—and promote a love of reading and learning so that students return to school better prepared to learn and succeed.

The Camps Program Support will be involved in the delivery of multiple Summer Literacy Camp locations, including a significant role in community relationship building, hiring and training of staff, logistics and supplies, and program evaluation. The Camps Program Support will be required to travel throughout the camps period to visit multiple camps, to check-in with camp staff and troubleshoot on-the-spot issues, as well as lead many administrative tasks including managing payroll, contracting and reporting. Travel to remote communities in British Columbia will be frequent, and some working weekends and overtime likely.

Overall Accountability

The Camps Program Support will report directly to the BC/YT Summer Literacy Camps Coordinator and works closely with other regional staff on all aspects of 10+ Summer Literacy Camps being delivered throughout the province, in partnership with First Nations groups.

Major Duties and Responsibilities

- Assist in coordinating and implementing all logistics related to summer literacy camps including travel, training, food, housing, materials, shipping, etc.

April 23, 2018

Dear Friends and Patients,

I am pleased to announce that as of June 4, 2018 I will be joining Point Grey Medical Clinic. As a result of this change, I will be moving my office to a new location (just 10 minutes from my old office).

In my new location I will be joining an outstanding group of physicians. There will be no change in my Monday to Friday clinic hours. I will have additional support of colleagues to provide coverage when I am out of the office.

I value you as a patient and hope that you will come to my new office for your healthcare needs. Your medical records will be moved to the new office location on June 4, 2018. If you would like to have your records sent to another practice, please have that practice send a release form to my new office.

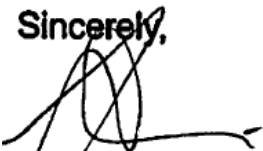

I realize that change can be difficult but my staff and I hope to make the transition as smooth as possible for you. We have included all the details regarding our new location below.

It has been a pleasure working with you and I look forward to seeing you at my new location.

Safe Drinking Water Monitoring Program

Charlene Campbell-Wood

CHLORINATION

Background

Chlorine is added as part of the drinking water treatment process. However, chlorine also reacts with the organic matter, naturally present in water, such as decaying leaves. This chemical reaction forms a group of chemicals known as disinfection by-products. **The most common of these by-products are trihalomethanes (THMs), which include chloroform.** The amount of THMs found in drinking water depends on a number of things, including the season and the source of the water. For example, THM levels are generally lower in winter than in summer, because the amount of natural organic matter is lower and less chlorine is needed to disinfect at colder temperatures. THM levels are also low when wells or large lakes are the drinking water source, and higher when rivers or other surface waters are the source, because they generally contain more organic matter

The Benefits of Chlorine

Current scientific data shows that the benefits of chlorinating our drinking water (less disease) are much greater than any health risks from **THMs** and other by-products. Although other disinfectants are available, chlorine remains the choice of water treatment experts. When used with modern water filtration methods, chlorine is effective against virtually all microorganisms. Chlorine is easy to apply and small amounts of the chemical remain in the water as it travels in the distribution system from the treatment plant to the consumer's tap. This level of effectiveness ensures that microorganisms cannot recontaminate the water after it leaves the treatment plant.

Alternatives to Chlorination

A number of cities use ozone to disinfect their water, because ozonation does not produce **THMs**. Although ozone is a very effective disinfectant, it breaks down quickly and cannot be used to maintain disinfection in the distribution system. Small amounts of chlorine or other disinfectants still must be added. Renovating water treatment plants so they can use ozone can be expensive.

Examples of other disinfectants include chloramines and chlorine dioxide. Chloramines are weaker disinfectants than chlorine, but are very effective in the distribution system. Chlorine dioxide can be used in the treatment plant, but it is not very effective in the distribution system.

All chemical disinfectants used in drinking water can be expected to form by-products that could affect human health. In general, we know less about the by-products of other disinfectants than about chlorination by-products.

The Risks of Chlorination By-Products

Lab animals exposed to very high levels of **THMs** have an increased risk of cancer. Several studies on humans have also found a link between long-term exposure to high levels of chlorination by-products and a higher risk of cancer. For instance, a recent study showed an increased risk of bladder and possibly colon cancer in people who drank chlorinated water for 35 years or more.

High levels of **THMs** may also have an effect on pregnancy. A California study found that pregnant women who drank large amounts of tap water with high **THMs** had an increased risk of miscarriage. These studies do not prove that there is a link between **THMs** and cancer or miscarriage. However, they do show the need for further research in this area to confirm potential health effects.

You will be receiving a call from FNESS to confirm the number of extinguishers we sent, thus the number of extinguishers that should be sent back to FNESS.

This announcement requires acknowledgement on your behalf. Please return the second page to FNESS either by fax or email.
