

# Community Engagement Workshop

Please join us for a community engagement hosted by the Musqueam Energy Projects Team. This event is intended to provide information to members, and provide feedback about 'what matters most' to Musqueam members for the territory, including harvesting of plants, fish, cultural sites, and other current cultural issues. We are seeking to understand how all new proposed projects will impact Musqueam members rights and cultural practices in the territory.

**December 10th, 2015, 5:30-7:30p.m.**

**At the Musqueam Community Centre**

This is the beginning of several workshops that will involve Musqueam members. We need to hear your voices about what you are concerned about in the territory, and how we are working to protect, restore, and defend Musqueam's interests. Information booths and interactive presentations will be set up seeking your feedback.

**Food will be  
provided!**

**Door Prizes!!!**

**Save the date**
